## Commission Pricing — Relief Prints by Shane Monds

All commissions are hand-carved linocut prints unless otherwise specified. Each image is carved into a single block and printed by hand. Pricing is based on square inches, with two options depending on complexity and presentation.

### Standard Commission — \$3 per square inch

Includes a hand-carved linocut, one signed edition print and one artist's proof (AP), and archival printmaking paper selected by the artist. Standard pricing includes artwork only. Framing may be added at the time of commissioning with economy or professional options available.

### Premium Commission — \$5 per square inch

Includes significantly increased design complexity and professional framing services (double-matted or float-mounted), resulting in a wall-ready presentation.

### Common Sizes & Pricing

Size	Sq In	Standard	Premium
